

Triple Windrow
Attachment

HESSTON
by MASSEY FERGUSON

**Single, double or triple windrows –
unmatched versatility.**

Introducing the new Triple Windrow Attachment from Hesston by Massey Ferguson®

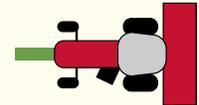

For more than 70 years, Hesston by Massey Ferguson® has led the way in quality hay innovation. The new Triple Windrow Attachment (TWA) continues that tradition. Exclusively for Hesston® windrowers, the TWA allows for single, double or triple windrows, saving time when baling or forage harvesting. It also gives you the flexibility to meet your needs in various crop conditions by combining windrows at the time of cutting, eliminating the need for additional merger or rake operations. Not only do you save fuel, time and manpower, but you reduce equipment wear and tear and eliminate passes across the field, minimizing compaction, crop damage and loss while using the TWA.

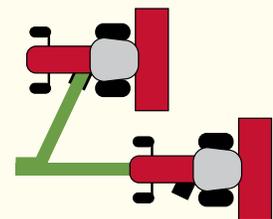

- Provides an even, consistent windrow for self-propelled forage harvester or baler.
- The adjustable angle control provides accurate crop placement.
- The changeable speed platform makes belt speed, deck raise and lower and deck lock programmable functions on the Hesston WR9800 Series FNR handle. All controls are fully integrated, and everything can be done from the operator seat, making them simple to use, increasing operator comfort and ease of use.
- Folds up out of the way and locks for transport when moving between fields.
- Compatible with Hesston's industry exclusive RearSteer™ option.

LONG DECK TRIPLE/DOUBLE/SINGLE PLATFORM (TWA)	
Table length	128.3 in. (3,258.5 mm)
Table height mounted from tractor	24 in. (609.6 mm) bottom, 35.6 in. (905.1 mm) top
Table width	47.7 in. (1,211.4 mm)
Angle of the outer pivot	Adjustable from 0 to 8 degrees
Belt speed variance	10.1–34.2 ft./sec.
Ground clearance when table is down	Adjustable from 2 in. (50 mm) to 5 in. (127 mm)
Table float when on the ground	Lift cylinder is held extended by charge pressure from the tractor to provide float
FNR handle control	Belt speed, deck raise/lower and deck lock

For more than 25 years, in more than 140 countries worldwide, AGCO has been on a mission to become the single resource farmers can depend on for innovative, leading-edge thinking, equipment and technology. And, today, you know AGCO brands, even if you don't know the AGCO name. While AGCO equipment may not all share the same logo or same color, they all have one thing in common – the ability to help farmers be as productive and profitable as they possibly can be, regardless of the tasks at hand. agcocorp.com
